You've demonstrated your success as a professional athlete and now they want you to tell your story.

As an accomplished athlete you looked at every challenge as an opportunity and a hurdle to overcome....but when they asked you to get up and speak to a crowd...you experienced butterflies like never before.

Whether you are planning your first speech or have already achieved success as an accomplished sports celebrity speaker, come learn how to improve your presence on the platform.

In this session, limited to only sports celebrity speakers, you will learn how to take your credibility and confidence to the next level and shine with every speaking event.

Attendees will gain insider's knowledge of the speaking business and an understanding of what it takes to shine for every speaking opportunity.
